PROFESSIONAL SUMMARY

Computer Science undergraduate with experience in UI development and a foundation in data analytics, requirements analysis, and software development. Skilled in SQL, Excel, Power BI, Java, JavaScript, and modern web technologies, with hands-on experience building user-focused applications and working with project requirements. Interested in Business Analyst, Data Analytics, and Product-oriented roles.

WORK EXPERIENCE

UI Developer

Jan 2026 – Mar 2026

MoodNest — moodnest.in

Remote

- Engineered responsive and scalable user interfaces for a live event-ticketing platform, enhancing user experience and visual consistency.
- Developed dynamic frontend components using HTML, CSS, and JavaScript for booking workflows and event discovery features.
- Optimized frontend performance and ensured seamless cross-device and cross-browser compatibility.

EDUCATION

Vellore Institute of Technology

Aug 2023 – May 2027

B.Tech in CSE (Education Technology)

CGPA: 7.7/10

TECHNICAL SKILLS

Programming Languages: C++, Java, JavaScript, SQL

Backend & Databases: Node.js, Express.js, MongoDB, REST APIs, JWT Authentication

Frontend: React.js, HTML, CSS, Progressive Web Apps (PWA)

DevOps & Tools: Git, GitHub, Postman, Linux, Vercel, Render

Cloud & APIs: AWS, Google Cloud, Google Places API

Data & Analytics: SQL, Excel, Power BI

PROJECTS

Offline QR Ticket Verification System | Offline-First PWA System

Feb 2026 – Present

- IndexedDB, Service Worker
- Built offline QR validation system enabling secure ticket scanning without internet connectivity.
- Implemented duplicate prevention and offline check-in logs supporting **1,000+ attendees**.

Braille Learning App | Assistive Learning Application

Nov 2024 – Dec 2024

- UI/UX, Java
- Developed a learning application to support Braille education, helping users understand and practice basic Braille patterns effectively.
- Focused on simple interface design, structured learning flow, and improved accessibility for a better user experience.

Wellness Chatbot | AI-Powered Wellness Chatbot

Present

- Developed an AI-powered wellness chatbot using React.js, Node.js, Express.js, Firebase, Firestore, and Groq API, featuring interactive conversations and personalized wellness support to help users track daily activities, sleep, and hydration.

CERTIFICATIONS

Google IT Support Professional (2026) — NPTEL: Crime and Cyber Security (2026) — NPTEL: Cloud Computing (2025) — AWS Technical Essentials (2025) — Linux Tutorial (2025)
